## Standers, Walkers, "Gets-It" for Corns

World Has Never Known Its Equal  
"What will get rid of my corn?"  
The answer has been made by millions—there's only one corn-remover that you can bank on, that's absolutely certain, that makes any corn

"Corn-Pain is Eased—the Corn is Doomed!"  
An earth peel right off like a banana skin—and that's magic "Gets-It." Right shoes and dancing even when you have a corn need not disturb you if you apply a few drops of "Gets-It" on the corn or callus. You want a corn-peeler, not a corn-remover. You don't have to fool with knives—you peel them right off with your fingers by using "Gets-It." Cutting makes corns grow and bleed. Why use irritating salves and make a bundle of your toe with tape or bandages? Why putter and still have the corn? Use "Gets-It." Your corn-pain is over, the corn is a "poor" sure as the sun rises. "Gets-It," the guaranteed money-back corn-remover, the only sure way, costs but a trifle at any drug store. Sold by E. Lawrence & Co., Chicago, Ill. Best in Fairmont and recommended as the world's best corn remedy by W. R. Crane & Co., Fairmont Pharmacy, H. & H. Drug Co., Adv.

## HAYMOND INVITES FRIENDS TO FIGHT

"Kindly remember me to any of my friends you may see and tell them all to arrange to come to France, if possible, because the more Americans there are in France the stronger our forces become and the sooner the war will end with a victory for the Allies," writes Sergeant Major Frank C. Haymond to U. H. Dunlap, of this city.

His letter in part follows: "I am sorry not to have been able to write you sooner as I had intended to do, but in the A. E. F. one's time is not all one's own and the opportunities for writing letters are not the same as those presented to people to Fairmont."

"I see occasionally, by some newspaper clippings, that some Fairmonters in France have been writing letters containing a good bit of detailed information about the war. This is all right and perhaps permitted to persons who are not actually in the army but all soldiers in the American Expeditionary Forces are prohibited from writing any definite military information. I would like very much to write you a long letter and give you some interesting facts but a soldier's first and most important duty is obedience to orders. Consequently, such news as I possess will have to wait for another and more favorable time and place."

"While I can not give you, as I have said, any detailed or definite information, I am permitted to write that I have been for some time in the zone of the advance. You, of course, know of the recent splendid achievement of American arms in the Chateau-Thierry region. The Kaiser and his Huns richly deserve a long delayed thrashing and before long, in my opinion, they will receive their just dues."

"The section of the country in which I am located now, in many respects, resembles parts of West Virginia. The climate here is moderate and not subject to sudden change. In the summer months the temperature is not nearly as warm as it is in Fairmont during the same season. This section is also interesting from an historical point of view. There are many places near here whose history extends back into the middle ages and even to the days of the Romans. Then, too, we must not forget that a greater and grander history is daily being made in the immediate vicinity."

"I like and am much impressed with the French people with whom I have come in contact. One can not but ad-

miire their courage, patience and dauntless spirit. All the world knows how France has suffered, but no one would learn of it from the French themselves. Even during the days of the early German offensives the French never showed the least discouragement or excitement, their attitude at all times is that of confidence and assurance. The American soldiers are well liked by the French who express admiration for the conduct of our troops in battle.

"I will be glad to write you about the Red Cross in another letter. At the present time I have only a few minutes and do not have the time or the opportunity to give you anything on the subject which might be of use."

"Let me hear from you when you can send me any news that you think would be of interest to me."

"With kind personal regards, I am, 'Your friend,'

"FRANK C. HAYMOND."

"P. S.—I am enclosing as a pocket-piece a small French coin. 'Un petit souvenir de France.' It is called a 'dix centimes' piece and is the equivalent of a U. S. two-cent piece."

"F. C. H."

The letter bore the date of August 10.
